

WEST COAST Elevators

A photograph of a modern, multi-story building interior. A central glass and white elevator shaft rises vertically, showing the internal structure and doors. The surrounding area includes stone walls, glass railings, and warm interior lighting. A small statue is visible on the left side of the frame.

ABOUT US

West Coast Elevators

ABOUT US

West Coast Elevators are an Australian owned and operated company with a highly professional, motivated and friendly team who specialise in supplying the best products and services to meet the needs of the Australian industry.

We are committed to exceeding our customers expectations through custom design with complete flexibility and value for money. Our standard lift packages come with many inclusions. We are committed to delivering affordable luxury.

WHAT WE DO

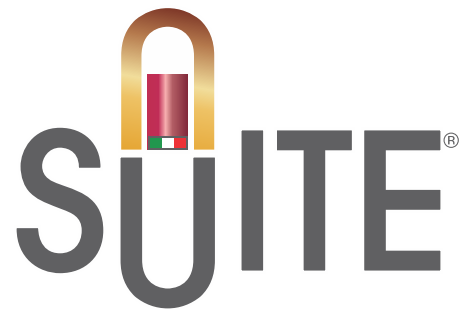

West Coast Elevators are the exclusive Australian distributors of the Italian designed and made 'Suite Lift' range of products, which are compliant to the Australian Lift Code AS1735.

We specialise in the Supply, Installation and Maintenance of high quality Italian Residential Lifts, Low Rise Commercial Lifts and Disability Access Lifts. West Coast Elevators will not be beaten for Quality, Flexibility, Value and Customer Service. Our team of skilled staff have many years of experience and knowledge within the industry and are committed to assisting all of our clients with design, Installation, Service and 24hr Support.

THE SUITE DIFFERENCE

About our Italian supplier

SUITE LIFT - OUR ITALIAN SUPPLIER

The Suite range of products have over 20 years of design and manufacturing experience built into them. Each lift package comprises of the latest technology resulting in the highest quality, stylish and efficient lift systems. Our supplier is committed to continuous improvement and design innovation.

Suite Lifts are manufactured using innovative, energy efficient machinery such as the Fiber Optic Laser Cutting machine. The entire production process relies on the energy produced by a 100 kw solar powered system installed at the production plant. Thanks to this, the factory is energy self-sufficient, conforming our suppliers commitment to a greener future.

All Suite Lift packages come with the latest energy saving features and are qualified Class A according to the German norm VDI4707.

Italian supplier

MINI SUITE LIFT

perfect solution for Disability Access

DISABILITY ACCESS 'MINI SUITE LIFT'

Complying to AS1735.14 & AS1735.15 - Low rise platforms for passengers

The sleek and efficient Mini Suite Lift is the perfect solution for Disability Access. West Coast Elevators has a built this package specifically for Australia. The Mini Suite platform is perfect for any environment thanks to its sleek and careful designed configuration, which includes stainless steel frame, toughened safety glass paneling, mechanical guard system, aluminium anti slip treadplate floor, glass doors with semi automatic closing and electric lock.

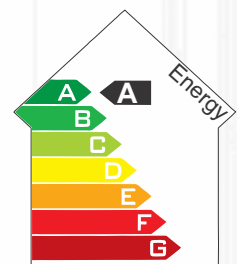

Building large ramps for limited mobility access to buildings can be costly with the current gradient required for ramps, the space required can be substantive and not always achievable. The Mini Suite Lift is the perfect solution for saving space and offers immediate access to any building entrance. Getting your certificate of occupancy is easy when you have a compliant Mini Suite Lift installed.
